## LISTEN & LEARN

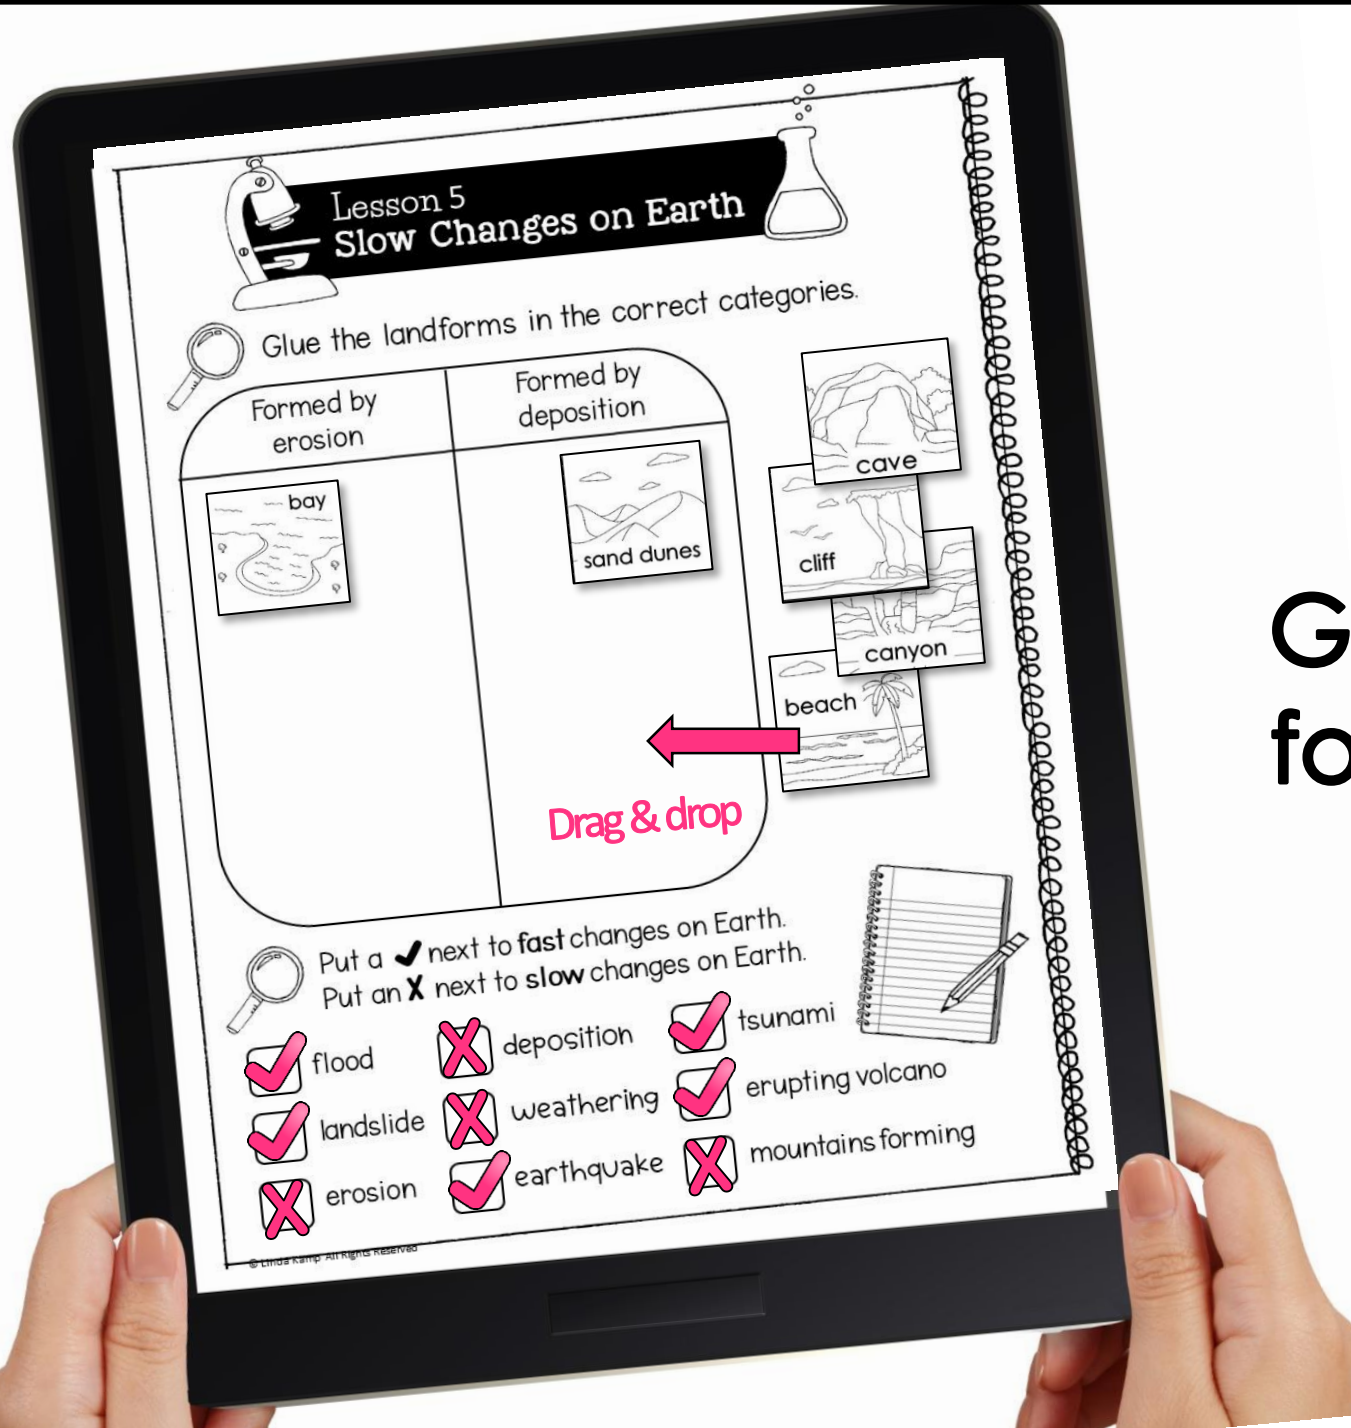

## 7 LISTEN & LEARN LESSONS

Students can do independently

- Describing Earth's Land
- Exploring Earth's Water
- Mapping Earth's Surface
- Fast Changes on Earth
- Slow Changes on Earth
- People Change the Earth
- Protecting Earth's Land and Water

# LESSON RESPONSE ACTIVITIES

Interactive  
journal  
response  
pages on  
Google Slides™  
for each lesson

# GOOGLE SLIDE CENTER GAMES

Reinforce  
**SCIENCE**  
CONTENT

Practice  
**MATH & LITERACY**  
SKILLS

Practice games with  
moveable pieces

# ASSESSMENTS MADE EASY

**TYPE YOUR ANSWER**  
Short response quizzes

**LESSON 5 QUICK CHECK**

**Fill in the Blank**  
Drag the words to complete the sentences.

trees   Wind   erosion

Some Earth changes happen slowly.

Over time, ocean waves can cause \_\_\_\_\_  
of coastlines. \_\_\_\_\_ can cause the  
weathering of rocks and mountains. Planting  
\_\_\_\_\_ is one way to help stop erosion.

LANDFORMS: EARTH'S CHANGING LAND & WATER

**LESSON 5 QUICK CHECK**

**Short Response**

What are two Earth changes that happen slowly?  
**Type here**

What is erosion?  
**Type here**

How are mountains formed?  
**Type here**

LANDFORMS: EARTH'S CHANGING LAND & WATER

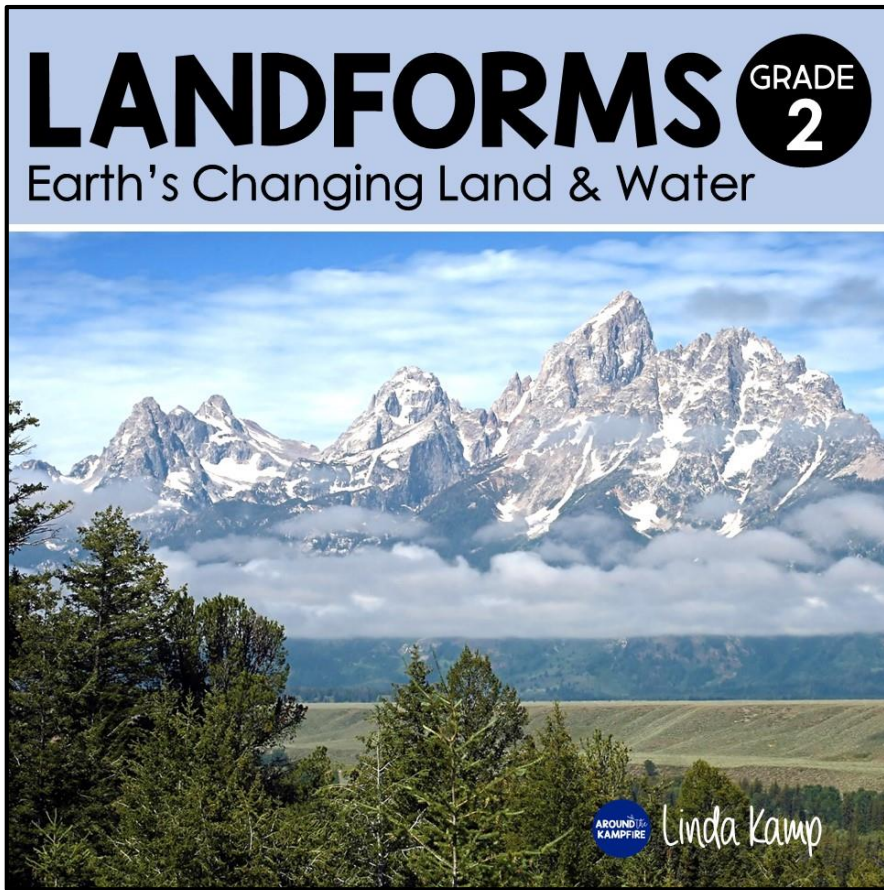

**DRAG & DROP**  
Fill in the blank quizzes

Differentiated quizzes & unit test included
